

CEM - POXY (CP-40)

RESIN & HARDENER

Description

CEM-POXY CP 40 Hardener is a curing agent for an epoxy resin base compound. CEM POXY CP 40 is a self-leveling and smooth coating for coating application such as wood, concrete and part of floor coating system.

Areas of Application

- Wooden Furniture.
- Interior Works.
- Concrete Floors.
- Commercial Industry.

Features and Benefits

- CEM POXY CP 40 resin and hardener cured product is a seamless coating, having excellent flow and leveling characteristics.
- CEM POXY CP 40 resin and hardener having high mechanical strength with excellent Impact and mar resistance.
- CEMPOXY CP 40 resin and hardener dry hard after 24 hours (at 30°C) of application.

Method Of Application

1. Surface Preparation

- Surface Preparation: As per standard practice of surface preparation.

2. Mixing

- Stir the CEM POXY CP 40-Resin and CEM POXY CP 40-Hardener separately, with the help of power-driven hand stirrer.
- Mix hardener into the base then add filler in that mixture as per the stated mixing ratio.
- Apply after induction time and before expiration of pot life.

3. Application

- CEM POXY CP 40 can be applied on wet primer or without primer on wooden surface.
- Substrate temperature should be at least 3 °C above dew point.
- Maximum relative humidity during application and curing is below 85%.
- All tools and equipment can be cleaned with Thinner. Allow to cure for overnight.

Precautions & Limitations

- It should not be used without proper formwork.
- Large thickness application cannot be done in a single time as it leads to exothermic reactions and results in cracking.

CEM - POXY (CP-40)

RESIN & HARDENER

Technical Information

Sr. No.	Properties	Results
1	Appearance	Clear Liquid
2	AHEW	95-125
3	Colour GS ASTM D 1544	< 1
4	Mix Ratio by wt.	2 : 1 (R : H)
5	Specific Gravity	0.98±0.03
6	Viscosity @ 25°C,cPs	300-600
7	Application Method	Leveler/Spike roller/Trowel
8	Pot Life @ 25°C	90 Minutes
8	Flash Point	Above 30°C

The values obtained are from our laboratory testing conditions. Tests conducted on site conditions may show slight variations due to methods of testing/application. *

Storage 12 months from date of production, if stored properly in unopened sealed dry condition and in accordance with local regulations.

Packaging 10, 15&20Kgs

Health & Safety Precautions

- As a general safety measure, inhalation of solvent vapors or coating mist and contact of coating with skin & eyes should be avoided.
- Forced ventilation should be provided when applying coating in confined spaces or stagnant air.
- Even when ventilation is provided, respiratory, skin and eye Protections are always recommended while coating application.
